

PEDIATRIC & ADOLESCENT PSYCHOLOGY

Baker Street is a safe place for children and families to learn new skills, heal, and grow. Our therapists work with parents and children to assess potential problems and explore solutions. Therefore, together we help reduce symptoms, while improving relationships and social skills.

PSYCHOTHERAPY FOR ADULTS, COUPLES, & FAMILIES

Baker Street clinicians systematically approach behavioral health issues with the goal of restoring mind, body, & spirit. Using evidence-based modalities, we treat each individual, couple, and family member with proven therapeutic techniques that facilitate healing.

SPORT & PERFORMANCE SPECIALISTS

Performance psychology can assist athletes, executives, military personnel, and artists (i.e., any performer) achieve new heights in their performance and personal lives. Performance psychology clinicians meet with teams and individuals to enhance their mental skills, with the goal of gaining a "mental edge" in competition/performance.

TEACHERS & FIRST RESPONDERS

We understand the pressures of being an educator and first responder. Our staff specializes in helping professionals manage stress and maintain work-life balance. We are grateful for your service, and in return, should you or your family members require treatment, we will work together to establish an expedited appointment.

AUTISM & APPLIED BEHAVIOR ANALYSIS (ABA)

The Baker Street staff includes clinicians with specialized understanding of the diagnosis and treatment of individuals and families who are affected by autism. At the cornerstone of sound clinical treatment is collaboration. We partner with other specialists to provide streamlined care for you and your family members. Call 201.660.8270 or visit CorBehavioral.com for information about ABA services.

SUBSTANCE ABUSE & ADDICTIONS

Substance abuse and addiction treatment is customized and individualized. Our integrated treatment approaches assist clients in gaining social support, learning new coping skills, developing healthy relationships, and discovering the freedom of living without substances.

ABOUT

Since our inception, Baker Street Behavioral Health has focused on building a strategic, quality, and diversified mental health practice.

Our clinicians incorporate a whole-person approach into each service we provide, utilizing unique, comprehensive programs designed to improve overall health and well-being. We emphasize the use of traditional, cutting-edge, and empirically supported therapies to promote an individual's physical, emotional, social and psychological health.

Services available for children, couples, adolescents, adults, and families.
