ABOUT US

The New Jersey Expanding Capabilities Center was developed by a woman with the goal of providing individuals with disabilities the opportunity to live their lives to their fullest potential. With over 25 years of experience, I have advocated for this vulnerable population, seen triumphs and failures, and have worked alongside wonderful people. I have seen how the quality and focus of a program can impact the lives of those individuals with disabilities in both positive and negative ways. My extensive experience has shown me what contributes to a program's success and how important a focus on individual needs is to providing effective supports and services. I saw an opportunity to bring about the possibilities of better outcomes for a population that I have come to love. It is my mission to provide a program that focuses on the individual and facilitates growth and independence for its clients.

-Dawn Willis
RBT,MSW,LCSW
Chief Executive Officer

The New Jersey Expanding Capabilities Center

Putting Functionality First

THERAPEUTIC SERVICES

The NJ ECC recognizes that for each individual, success is measured in different ways. The services and supports provided are considered on an individual basis to provide the best care and opportunities possible for each client.

**Behavioral Management
Assessment And Monitoring
Occupational Therapy**

Speech Therapy

Physical Therapy

Aba Approaches

Dialectical Behavior Therapy (DBT)

Positive Behavior Supports

Nurtured Heart Approach

MISSION STATEMENT

The NJ ECC's mission is to provide a functional environment promoting individuality and independence in day-to-day life skills for adults with developmental disabilities. Our program focuses on the expansion of skills learned to ensure successful community integration and an exceptional quality of life.

PROGRAMS OFFERED

The NJ ECC focuses on its clients in terms of individual needs and supports. It offers programs which emphasize the specific needs of each client to best facilitate their personal growth and independence.
