PURPOSE & MISSION

Our purpose is to expose and engage black and brown youth. Our mission is to engage, identify and mold black and brown youth visionaries, pioneers, and technopreneurs in STEAM.

According to the Pew Research Center, only 17 percent of Black and Brown people (2017-2019), obtain a job in the STEM workforce. To further enhance this issue, 1 in 10 STEM professionals is a minority woman. Our organization aims to provide proactive solutions to increasing black and brown youth in STEAM fields.

PBS STEAM will be conducting workshop courses, events and providing mentorship to the future innovators.

Series of events: KHEM Fest, Khem Animation Film Festival (KAFF), Game Jam, Wakanda Ball and The Future is Black STEAM Expo

Monthly events such as college field trips and the Khem Fest will expose black and brown youth to **STEAM** opportunities, build networks and provide a new perspective of career possibilities.

STEM-BASED VIOLENCE PREVENTION PROGRAM

The STEM-based Violence Prevention Program consists of a 12-month curriculum that teaches participants key concepts related to STEM fields, such as animation, game design, programming, and mechanics, among others. Participants will also gain crucial knowledge and skills related to violence prevention and coping mechanisms. We take donations from local businesses and use them to create the next generation of technopreneurs. Help us connect with donors and with people in need.
